

Northern Light® Business News

A comprehensive search of online business news, premium newswires, and industry authority blogs featuring text analytics, sentiment scoring, and meaning extraction.

Northern Light Business News is designed to meet the needs of market researchers, competitive intelligence professionals, analyst relations, corporate communications, PR, sales people, product developers, strategic planners, and information center professionals. It is an easy to use, effective and affordable business search engine that delivers better results than available alternatives for business research.

Northern Light's business news content, updated every few minutes, includes:

- **Business News** - 18,000 stories a day from hundreds of premium newswires and online national and international news sources covering every industry. Including major publications like the *New York Times*, *Washington Post*, *Reuters*, *Economist*, *Forbes*, *Business Week*, *Fortune*, *Financial Times*, *San Jose Mercury News*, and 75 stories a day from the *Wall Street Journal*.
- **Industry Authority Blogs** - 2,000 posts a day from thousands of industry authority blogs published by market research firms, industry publications, and corporate executives.
- **White Papers** - Over 5,000 company submitted white papers, webcasts, case studies and other IT product information.

MI Analyst for Meaning Extraction. MI Analyst combines the power of Northern Light's best-in-class full-text searching with advanced text analytics developed specifically for Market Intelligence applications.

- **Sentiment Scoring** - See the summary sentiment score and sort documents by sentiment toward your company and your competitors.
- **Relationship Identification** - Discover relationships between companies, markets, and technologies.
- **Meaning Extraction** - Uncover relevant business issues and identify threats and opportunities.
- **Trend analysis** – display trends in coverage and sentiment with data export options.

Available in a Custom Enterprise Search Portal. You can use Northern Light Business News in a customized enterprise search portal. Customization options include look and feel, single sign-on, expert searches crafted to your company's needs, and optional Enterprise 2.0 features like bookmarking, cloud tags and wikis. Your company can also search the news from your intranet using Northern Light's API.
